Leaving a balance due the treasurer of \$6,526.13, and he also claims some interest on said sum, but we had not time to compute the same and thought best to let it come into the next year's bills. We find the accounts of the treasurer correctly cast and well vouched for.

The selectmen were anxious to have us audit their accounts, but from the delay of those holding claims against the town of bringing them in for settlement with the selectmen, we had not the time to devote to it, and are not able to give the indebtedness of the town—or the assets.
